### 4) Cell phone experiment

So today, I had my students turn their phones on loud, and every time they received a notification, they came up and put a tally mark under the correct category. This was only one class period. Every one of these tally marks is an interruption in a students education. They lose focus and are off task, worrying about Instagram instead of Harper Lee's To Kill a Mockingbird.

👉👉👉 Cell phones are toxic to a learning environment. 👉👉👉

\*edit\*

Super surprised at how many people this has reached! 😊

To clarify, in my classroom we do NOT do this every day. Cell phones are supposed to be off and put away during class.

  - i) Would need two forms
  - ii) HA would not be in for the third form
- b) Grade 6 will continue
